

Draughtbusting workshop

Want to keep warm, save energy and reduce your fuel bills?
Learn how with the Sustainable Wantage Draughtbusters!

Saturday 31st Jan 1 - 3pm

In this workshop, Draughtbuster volunteers will talk you through how to fix draughts in your home **and give you supplies with which to do this.**

To help you get the most out of this workshop we'll be sharing a 'Draughtbust your home' checklist when you book, so you can check your home and bring your findings along on the day.

The Draughtbusters will explain common issues and fixes, and advise on specific issues. We'll also share our learnings on ventilation, and how to use your heating controls effectively.

Book online: scan QR code to get to our events page or visit sustainablewantage.org.uk and click on 'Events' tab

Questions or can't book online? contact wantagemix@gmail.com

This workshop is free, please book to let us know you're coming along.
